

SG-Casing End Seal

In brief...

- SG Casing end seals are tailor made according to your demand.
- Ideal solution for installation with large eccentricity.
- Available with additional openings for cable protection pipes.
- Seamless version.
- High load-bearing capacity.
- Also available in reinforced version.

In case of order we need the following information

- OD of carrier pipe.
- OD of casing pipe and wall thickness.
- Skid height of insulators/spacers.
- Positioning of opening for cable protective pipes (clockwise).
