

## Casing tube

### Summary

- Solid, fracture-proof, lightweight, economic
- Outer surface structure rough and fibrous; inner surface smooth
- For concreting and immuring
- Guarantees force-fit and waterproof bond with the concrete
- Can be adapted to wall thickness using a saw on site
- Material: unplasticized PVC acc. to DIN 8061
- After the medium pipe has been inserted, the annular gap can be sealed via sgm Modular Wall and Casing Seals
