

IDENTIFICATION PLATES FOR GAS LINES

According to **DIN 4065**
DIN 4069 G
DIN 4069 K

In brief...

- They are made of a bicolour injection-moulded plate in ASA Thermoplast (Luran S), which can take extreme weather, temperatures and shocks.
- Thanks to their absolutely non-reflecting matt surface, they allow easy reading, even at a distance.
- They are firmly fastened by 4 countersunk stainless steel (V2a) screws in a firm, flat mount.
- They can be fitted either with SGM inserts or with all inserts currently produced by other manufacturers.

Variations :

For gas lines DIN 4065
(200 x 140 mm) :

With one optional aperture for a
10 mm high, 12-field insert at top
centre.

For gas lines DIN 4069 G
(200 x 140 mm) :

With the option of 1, 2 or no
apertures for a 10 mm high, 5-field
insert at top right.

For house connections
DIN 4069 K (140 x 100mm) :

With or without aperture for a
10 mm high, 6-field insert at top
right.

Please note : All signplates and inserts can be printed to your own
specifications (e.g. in English). Multicolour printing also possible.

Backing plates :

All identification plates can be used
with an optional backing plate.

The backing plate increases stability
and prevents unauthorized removal
of the inserts.

(see below)

The backing plate is countersunk in
the signplate and therefore invisible.
Signplate and backing plate together
constitute a tough, compact and
warp-free unit.

Increased reliability : Camouflaged socket head

SGM uses stainless steel (V2a)
hexagonal socket screws to hinder
unauthorized removal (nevertheless
other screws can be used).
Practical plastic caps can effectively
camouflage the screw heads.

Further identification plate equipment :

(see separate leaflet)

Inserts :

- digits
- letters
- symbols
- special signs

Available in selections or as
complete sets in practical sorting
boxes.

Fastening elements :

- Aluminium fastening plates for
post or wall mounting.
- Aluminium posts
- Aluminium fastening clamps for
fixing fastening plates to posts.
- Screws, steel straps.
